

STORIES FROM THE GOLDEN AGE

"ONE OF THE GREATEST
LITERARY FIGURES OF THE
20TH CENTURY."

—Publishers Weekly

L. RON HUBBARD

FICTION

“To *you*, the millions of science fiction fans and general public who welcomed me back to the world of fiction so warmly, and to the critics and media who so pleasantly applauded . . .” — L. RON HUBBARD

With 19 *New York Times* bestsellers and more than 350 million copies of his works in circulation, L. Ron Hubbard is among the most acclaimed and widely read authors of our time. He was also one of the most prolific and popular writers during the Golden Age of Pulp Fiction. Indeed, between 1934 and 1950, more than 150 L. Ron Hubbard tales appeared in the pages of legendary Pulps, often as many as three titles an issue and by-lined under some fifteen pen names.

To meet such demand, he regularly produced between seventy-five and a hundred thousand words a month, with a 90% acceptance rate from publishers on first draft, first submission. Consequently, rarely a month passed when the name L. Ron Hubbard did not grace the cover of a major Pulp magazine.

That his stories were uniquely drawn from true-to-life experience, including voyages to Asia and the South Pacific, is likewise part of the L. Ron Hubbard legend. While as another word on the substance behind that legend: between fictional tales of high-seas adventure and far-flung exploration, L. Ron Hubbard led

two expeditions to the Caribbean and yet another across the Alaskan Panhandle. Accordingly, and before the age of thirty, he was admitted to the famed Explorers Club and earned a rare Master Mariner's license.

With the publication of *Dianetics: The Modern Science of Mental Health* in 1950, his more serious research kept him from literary pursuits for the next three decades. In 1980, however, to celebrate his fiftieth anniversary as a novelist and storyteller, L. Ron Hubbard returned to the field with his universally acclaimed science fiction epic, *Battlefield Earth: A Saga of the Year 3000*. The work was an immediate bestseller and subsequently earned a host of international awards.

What is generally regarded as L. Ron Hubbard's magnum opus, however, is the 10-volume *Mission Earth* series. Also an immediate international bestseller (with each volume successively rising to the *New York Times* list), the series is still a landmark in publishing history. Moreover, with a third generation of readers now discovering the tales of L. Ron Hubbard, he has forever secured his place in the annals of popular fiction.

L. RON HUBBARD: SOLVING MYSTERIES

When writing mysteries, Hubbard immersed himself in the salient subject matter — studying both forensic science and criminal investigation. He interviewed a wide spectrum of law enforcement officials, federal investigators and even served as a Special Officer with the Los Angeles Police Department, creating an authentic foundation for his detective fiction. So while his readers might remain in the dark until the final revelation, enjoying every twist and turn along the way, writing a mystery was never a mystery to Hubbard himself.

L. RON HUBBARD: EXPLORER

In addition to his personal experiences and travels as an explorer and prospector, master mariner and daredevil pilot, Hubbard conducted exhaustive research, consulting vintage technical books, ancient travel guides and forgotten literature. From that deep well of knowledge, he brought an unsurpassed degree of historical authenticity to his fiction. He said it best himself: *“I believe that the only way I can keep improving my work and my markets is by broadening my sphere of acquaintanceship with the world and its people and professions.”*

L. RON HUBBARD: IN THE WEST

Hubbard loved the West and understood the tradition and spirit of the frontier that had ever infused the daily life of his Montana childhood. Indeed, his Montana was a microcosm of the Western frontier, an immense natural expanse that “swallows men up rather easily” and a place he treasured, in retrospect, for “its do-and-dare attitudes, its wry humor, cowboy pranks, and make-nothing of the worst and most dangerous.”

L. RON HUBBARD: SCI-FI & FANTASY

By the spring of 1938, Hubbard’s stature as a writer was well established. As author and critic Robert Silverberg puts it: he had become a “master of the art of narrative”. Hubbard’s editors urged him to apply his gift for succinct characterization, original plot, deft pacing and imaginative action to a genre that was new, and essentially foreign to him—science fiction and fantasy. The rest is science fiction history.
